

SportsPlay™

We put the value in play!

Introducing the new
**Heavy Duty Outdoor
 Fitness Stations**
 from SportsPlay!

Our new and improved line of modern outdoor fitness stations is now available. There are 10 specialized stations featuring a wide range of popular exercise events that challenge all major muscle groups while building cardiovascular endurance. Several stations allow partners to work out simultaneously—and having a workout partner increases motivation.

The HD Outdoor Fitness line features:

- Improved torsion system—ensures resistance against the user when performing exercises—with gradual increased resistance and balanced movement with no sudden stops and fast movements, which can cause injuries.
- Hot dip galvanized metal parts with special metallic paint that makes the product look like stainless steel.
- Fully assembled—stations ship nearly fully assembled, reducing installation costs at the site.

• Plastic parts are 3-4 mm thick polyethylene and are available in 9 assorted colors.

• Tough rubber coated steel seats and pedals to ensure a long lifetime.
